From Data to Evidence

Monitoring, evaluation and learning that show what works and what changes.

MELANEL CONSULTING

Why This Matters

Collecting Data Is Not Enough

- Projects often collect plenty of data but struggle to show outcomes, impact and learning.
- Donors and leaders want evidence they can act on.

Our aim: systems that turn project data into decisions.

MELANEL CONSULTING

Design

Design the System

- **Theory of Change** and logical framework
- **Indicator matrix** and results framework
- **Data collection plan**

The result: a complete monitoring system, ready to run.

MELANEL CONSULTING

Measure

Measure Across the Project Cycle

- **Baseline** surveys
- **Midline** evaluations
- **Endline** studies
- Household surveys and institutional assessments

> Independent assessments from the first day to the last.

MELANEL CONSULTING

Prove

Prove the Impact

- **Outcome evaluation**
- **Impact measurement**
- **Value-for-money analysis**
- Lessons learned reports

The result: evidence that satisfies donors and improves programmes.

MELANEL CONSULTING

Learn

Keep Learning and Adapting

- **Learning agenda**
- **Knowledge management** systems
- **Performance dashboards**
- Adaptive management recommendations

> Continuous improvement, built into how you work.

Work With Us

Let’s Work Together

Our MEL practice helps you:

- **Design** M&E frameworks
- **Measure** with baselines, midlines and endlines
- **Learn** from dashboards and evidence
